Lactated Food Babies Stand Who died February 6, 1802, aged 49. Summer Heat the Best.

There are many anxious mothers now warm weather is here.

And they have every reason for being alarmed. The hot, vertical sun beats down mercilessly on the little ones; reduces their strength, robs them of high spirits, spoils their appetite and loosens their slender hold on life, untheir food is free from impurities and sufficiently nourishing and strengthen-

In thousands of cases where nursing, protracted into warm weather, has reduced the vitality and richness of the breast milk, babies that show signs of fretfulness and often colle, become again fat and sturdy when put on a diet of lactated food. It is undoubtedly true that bables that have the advantage of their mother's milk seem to stand the heat of summer best, providing the natural food agrees with them. But when hot weather brings down the strength of both mother and child there always danger of the severe bowel affections which come on so suddenly and are so often fatal.

Practiced physicians prescribe lactated food to be kept always on hand and used at once on the first indication of looseness or loss of strength, or if baby is evidently not thriving on its present diet. Lactated food is the diet physiclans use in their own families.

Mr. Roger D. DeBussy of New Haven was visiting friends here yesterday.

Mr. and Mrs. Alex Levy of New Milford are registered at Hotel Pembroke. Mr. Crissy Harrall of Fairfield has been the guest of Mrs. I. W. Birdseye several times this season. Mr. Clinton Sherwood has also been delightfully entertained at this most charming and

hospitable home. Wednesday evening Miss Mason of Derby and Miss Lane of Meriden gave peanut hunt to the guests at the otel on the bluff. After Mrs. Bolles of Hartford and Mr. Thompson of New Haven had carried off the prizes, the people enjoyed games of various kinds. The Rev. and Mrs. Stuart Means and children of New Haven spent yesterday at the home of Mr. Robert Merwin.

The Messrs, Harry and Leroy Lane went off for an all day's outing in their attractive naphtha launch yesterother places along the shore.

An aunt and cousin of Mrs. C. P.

Merwin enjoyed the day with her yesterday. A new well is being dug at Hotel San-

There is a committee of gentlemen actively engaged soliciting funds for a series of entertainments to be given weekly until the first of September. The first of the series will be a hop at Pembroke Saturday evening. The idea of a series of amusements originated with Edward I. Atwater of this city and Z. W. Goodsell and F. H. Stevens of Bridgeport, and when these gentlemen approached General Haw y and Colonel William B. Wooster and other prominent cottagers they promptly approved of it and a committee was formed as follows: General Hawley of Hartford, Colonel Wooster of Derby, Z. W. Goodsell and F. H. Stevens of Bridgeport, Stephen Tredenick of Meriden, E. C. Quiggles of Hartford, and C. H. Trowbridge, L. T. Hotchkiss, E. I. Atwater, J. Gibb Smith, Robert T. Merwin, D. T. Wiser and Edward Lawrence of this city and Rev. Dr. Joseph Anderson of Waterbury. The committee will soon organize and elect officers and appoint sub-committees. A committee, as stated, is already at work collecting money by subscription, and expect to raise \$500 to carry out the plan.

Mr. Sanford made his guests and the cottegers happy this evening by giving concert on hie spacious lawn. The Milford band entertained his friends with a fine program.

The Dangers of Cocaine.

Few drugs in recent times have received more general commendation than cocaine; its advantages as a local anaesthetic, received with some increhave been so abundantly proved that there may be a tendency to overlook the fact that there are certain dangers and amusing curiosity to us of the attendant upon its too frequent or reck- present generation. As a local anaesthet- announces to the public that its conic it has won golden opinions where veyance will leave Hartford at nine evsmall operations were required upon ery morning and arrive in New Haven superficial parts; in opthalmic and laryngeal surgery it may fairly be said to have revolutionized the methods of a few years back. But every now and again warnings are brought forward which indicate that with cocaine, as with opium and other modes of produ-

cing local or general angesthesia, there is danger in the familiarity which breeds, if not contempt, at least disregard of ordinary precautions. Verdicts of misadventure are no consolation to those concerned, if there is an underly-ing conviction that the fatality might never have occurred if there had been

any due appreciation of danger.

Cocaine is a drug which shares with opium and many others the questionable credit of developing a "habit," i. e., of leading, by the beneficent effects experienced after small doses, to a desire for the appearance of the same for the repetition of the relief; and as a shipment to Canada in conconsequence the dose employed tends to the Montreal bank failure. become greater, and the precautions which, perhaps, were taken at first are gradually relaxed. "Cocainism" is not so well recognized in this country as in America, but it undoubtedly exists as a form of self-indulgence or as a practice which, like morphinism, originally employed as a means of alleviating some chronic trouble, has ultimately developed into a form of self-indul-gence, in which the need of restraint and of precautionary measures are entirely lost in the fascination of the re-lief afforded by the drug. In a recent inquest the evidence showed that the drug had been originally prescribed for American Tobacco Co. 108% 100 the relief of pain in the gums, and the symptoms immediately preceding the termination were merely those of col-lapse; there was no indication of the amount employed or taken. In cases collapse is the most marked feature, and this symptom may arise when the drug has been employed as a local application in the form of a hypodermic injection or spray, and may frequently call for stimulant treatment after employment of the spray in laryngeal ex-

aminations. It must not be forgotten, however, that a true cocaine habit may be develinvest in thoroughbred mares and filles oped when the drug is taken internally in any quantity, and that this condition is occasionally marked by curious halward exportation to France for breed-lucinations and perversions of moral ing purposes, is welcome news to the sense, which, if the use of the drug is not discontinued, may lead to more se rious central disturbances. Legal investment for Savings Banks To California, unless fully convinced that it is a better line than any other. Convincing facts cheerfully furnished by local agents, or they can be had by addressing

S. W. Manning, General New England Agent, 322 Washington Street, BOSTON, MASS.

Here is one: No other road owns its own tracks and runs Pullman palace and tourist sleepers daily all the way between Chicago and Los Angeles. Another: We have a car in charge of a special agent from Boston to Califor

nia every Thursday evening. And another ; Our tourist sleepers are first-class in comfort and seco in price,—a combination that ought to please.

And still another: Our line is several hundred miles the shortest and many hours the quickest;—a saving of time counts for a good deal in a long journey. Finest
